

Social Learning & Course Enrollment App

1. User Registration & Authentication:

- Users can **sign up, log in, and manage profiles** (Learner, Tutor, Admin).

2. Course Discovery & Enrollment:

- Find courses based on **category, difficulty level, rating, tutor, and price.**
- View **course details, syllabus, tutor profile, reviews and Enrollment.**

4. Social Learning & Content Sharing:

- Post **learning updates, achievements, and queries.**
- **Like, comment** for the courses enrolled.

5. Payment & Subscription Management:

- Secure online payments (**UPI, cards, wallets**).
- **Subscription plans** for premium courses & exclusive content.

6. Ratings & Feedback:

- Users can **rate courses, leave reviews, and share experiences.**
- Tutors can **respond to reviews & improve content.**

7. Gamification & Rewards:

- Earn **badges & reward points** for course completions.
- Unlock **discounts, certificates, and premium content.**

SQL Use Case:

Write an SQL query to find the **average course duration** for **each user** who has enrolled in at least one course. The result should display the **user_name** and their corresponding average course duration.

1. Courses

- course_id (INT)
- course_name (VARCHAR)
- course_duration (INT) – Duration of the course in hours.

2. Enrollments

- enrollment_id (INT)
 - user_name (INT)
 - course_id (INT)
 - enrollment_date (DATE)
-
